SMALL FARMERS .- Every good citizen should encourage the opening up of small farms. Let the owners of large tracts of cleared lands divide and subdivide their possessions and lease a fair proportion to the young farmers who are compelled to rent lands. Agriculture is the foundation of county, "state and national as well as personal wealth, and he who can offer inducements that will swell the list of farmers of his neighborhood, and does not do it, fails to assist us out of the impoverished condition into which we have fallen. How much better it would be if the wealthy men of the South would turn a deaf car to the 5-20's; was here during the present week, would be be less exacting, and encourage young men, especially those who have families to take care of, to become tillers of the soil. Small | make it to their interests to call. Mickle, farms and intelligent white men to work expressly for the southern tride. them is what we need. How can we ever cause the icy grip of the mercinary yankee to fall from our throats unless we avail our selves of great natural gifts that surround us and become a self-sustaining people. It is the innumerable small farms of the North that psoduce the bacon for which we pay 30 cts. per pound; from the same source comes the flour we consume; and because "cotton is king" we pay one dollar and sixty cents per bushel for corn, and that too, while we have rich, alluvial bottom lands that produce nothing but weeds, simply because the former planter has not the force to cultivate in cotton. Draw lines, run cross fences, put up cabins and encourage those who desire to "tickle the bosom of mother earth," that he may smile upon them and drop a horn of plenty at every man's door.

OFF THE TRACE .- While a freight train was backing up to the depot last Wednesday two or three cars were thrown from the track. This accident compelled the south ward bound 3 o'clock passenger train to lay over here until 8 o'clock following. No other damage.
